1. List the members of your group below. Underline your name.

2. Describe some sub-problem or sub-task of your project in approximately 100 words, in a manner suitable for a non-specialist reader. Pick a sub-problem that is likely to be interesting to the reader given the constraints.

3. Repeat Question 2, this time for a reader who is familiar with basic Computer Science concepts.

4. Repeat Question 2, this time for a specialist working in the specific area of your project.

5. Critique from your partner:
