

This exercise augments class discussion of revised poster presentations.

1. List the members of your group below. Underline your name.
2. Recall the discussion from the previous class and list three important objectives for a poster.
3. Critique each poster presentation, focusing on how well it serves the objectives outlined above. Identify each poster by title and presenter.  
Note how, and how well, each poster addresses earlier feedback.

[additional space for answering the earlier question]
