1. List the members of your group below. Underline your name.

2. List three key similarities between introductions and abstracts of technical reports.

3. Repeat Q. 2 replacing similarities with differences.

4. List three important questions that most well-written introductions should answer.

5. List three kinds of material not usually included in introductions.

6. For each of the project proposals outlined in class:
    (a) Note the proposers' names.
    (b) List three tasks in each of (1) the core, (2) the desirable, (3) the optional layers, as well as three (related) tasks not in the projects.
    (c) Briefly describe a representative demo of the project.
